Re: Response to Review Request No. 17052:
Section 112(j) Applicability Determination
Plant ID: 003-00064

Dear Mr. Lennart:

Karl Schmidt Unisia, Inc., Zollner Division, located at 2425 Coliseum Boulevard South in Fort Wayne, Indiana, submitted a request for an applicability determination regarding the requirements of Section 112(j) of the Clean Air Act (CAA) on May 20, 2002. The letter was submitted in accordance with 40 CFR 63.52(d)(1) and requested that the Indiana Department of Environmental Management, Office of Air Quality (IDEM, OAQ) determine if Karl Schmidt Unisia, Inc., Zollner Division is subject to the requirements of Section 112(j) (40 CFR 63.50 through 63.56) for the following source categories:

- Engine Test Cells / Stands;
- Industrial, Commercial, & Institutional Boilers and Process Heaters; and
- Reciprocating Internal Combustion Engines (RICE).

Pursuant to 40 CFR 63.50, the requirements of Section 112(j) will apply only if your entire source is a major source of hazardous air pollutants (HAPs) and one or more of your processes or emissions units belong in a category or subcategory for which the United States Environmental Protection Agency (U.S. EPA) has failed to promulgate an emission standard on or before the Section 112(j) deadline. IDEM, OAQ has determined that your source is not subject to Section 112(j) for the following source categories:

- Engine Test Cells / Stands;
- Industrial, Commercial, & Institutional Boilers and Process Heaters; and
- Reciprocating Internal Combustion Engines (RICE).

An explanation of this determination is provided below.

The information submitted in the Part 1 MACT Application indicates that Karl Schmidt Unisia, Inc., Zollner Division is not a major source of HAPs. Karl Schmidt Unisia, Inc., Zollner Division has a Federally Enforceable State Operating Permit (FESOP), F 003-5869-00064, issued on December 9, 1996, that includes a federally enforceable limit on the potential to emit HAPs to below the major source thresholds. A Title V operating permit application for this source was received on October 13, 2003 and given the permit tracking number, T 003-15163-00064. Upon review, the draft Title V permit (T 003-15163-00064) for Karl Schmidt Unisia, Inc., Zollner Division indicates that the source is not a major source for HAPs. Since Karl Schmidt Unisia, Inc., Zollner Division is not a major source of HAPs, the source does not meet both applicability criteria of 40 CFR 63.50; therefore, Karl Schmidt Unisia, Inc., Zollner Division is not subject to the requirements of Section 112(j). IDEM, OAQ is issuing this letter pursuant to 40 CFR

63.52(e)(2)(i) to notify Karl Schmidt Unisia, Inc., Zollner Division that the requirements of Section 112(j) do not apply and no further action is necessary.

This determination is based on the information provided by Karl Schmidt Unisia, Inc., Zollner Division, IDEM, OAQ records, and the information currently available from the U.S. EPA. Note that if additional equipment or capacity is added or operational practices are changed (e.g., switching solvents from a solvent that contains no HAPs to a solvent containing HAPs), the Section 112(j) requirements may be triggered in accordance with 40 CFR 63.52(b). If the events described in 40 CFR 63.52(b) occur at the source, Karl Schmidt Unisia, Inc., Zollner Division shall submit a Part 1 MACT Application in accordance with the requirements and schedule contained in 40 CFR 63.52(b).

Questions should be directed to Kim Cottrell or Karthika Thurairajah, IDEM, OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call (800) 451-6027, and ask for Kim Cottrell at extension 3-0870 or Karthika Thurairajah at extension 3-4227, or dial (317) 233-0870 for Kim Cottrell or (317) 233-4227 for Karthika Thurairajah.

Sincerely,
